#### **Explanatory Notes**

#### **Data Quality and Methodolodgy**

This publication results from the compilation of data reported monthly in the "Refined Petroleum Products" Survey, covering all refining companies in Canada and major wholesalers/distributors. We would like to thank these respondents for their co-operation in the survey.

The response rate for this survey is 100% and as a consequence no estimation is required and no bias resulting from non-response is introduced in these data.

In order to ensure the accuracy and consistency of these data the results of this survey are reconciled with other Energy section surveys such as the monthly Crude Oil and Natural Gas Production (Cat. 26-006) and the monthly Oil Pipeline Transport (Cat. 55-001) surveys in terms of inter-provincial movements, imports, exports and deliveries to refineries by type of crude and means of delivery.

These reported data allow for a measurement of refining activity in Canada. The supply of crude oil is indicated by source and the volume of other materials charged is also shown. Production of 17 refined products or groups of products is detailed and is measured at a "net yield" level, that is after exchanges between various processes in refinery operations. As a result, inter-products transfers are primarily those transfers needed for marketing purposes. Propane and butanes, shown at the gross level, are the exceptions net yield measurement and therefore interproduct transfers for these products are not restricted to marketing transfers, but include movement to gasoline blending, to petrochemicals, etc. Similarly, interproduct transfers for "other products", a classification covering unfinished products whose final product form can vary, is not restricted to marketing transfers.

Data on the exports and imports of refined products are those reported by respondents to the survey, adjusted for exports and imports made by non-responding companies. When such adjustments are made, corresponding changes are made to "domestic sales". As a consequence, figures shown for "domestic sales" should accurately reflect total Canadian demand for refined products.

#### Renseignements généraux

#### Qualité des données et méthodologie

Cette publication est le fruit de la compilation des données obtenues mensuellement de l'enquête des produits pétroliers raffinés (PPR). Celle-ci est effectuée auprès de toutes les raffineries de pétrole au Canada et auprès des principaux grossistes et détaillants de PPR. Nous tenons à remercier toutes les sociétés déclarantes de l'effort qu'elles fournissent chaque mois.

Le taux de réponse est de 100% pour cette enquête et, par conséquent, il n'est pas nécessaire de faire d'estimations, les résultats ne souffrent donc pas du biais qu'entraîneraient des cas de non-réponse.

Afin d'assurer l'exactitude et la cohérence des résultats de cette enquête, nous les avons rapprochés à ceux d'enquêtes connexes de la Section de l'énergie, notamment l'enquête mensuelle sur la production de pétrole brut et de gaz naturel (no 26-006 au catalogue) et l'enquête mensuelle sur le transport du pétrole par pipe-lines (no 55-001 au catalogue), en ce qui a trait aux déplacements interprovinciaux, aux importations, aux exportations et aux livraisons faites aux raffineries selon le type de pétrole brut et le mode de livraison.

Les données contenues dans la publication permettent de mesurer l'activité des raffineries de pétrole. L'approvisionnement en pétrole est montré par source; l'utilisation d'autres charges d'alimentation est aussi indiquée. La production de PPR est détaillée entre 17 produits ou groupes de produits. La production de chaque produit est mesurée d'après le rendement "net" (c'est-à-dire après les échanges entre les diverses unités de raffinage), à l'exception de la production de propane et de butanes où une mesure brute est donnée. Les statistiques sur les échanges inter-produits devraient donc principalement refléter les échanges dus à des raisons de marketing, sauf pour le propane et les butanes, ainsi que pour les "autres produits" car ceux-ci incluent les produits non-finis dont l'utilisation finale peut varier.

Les statistiques sur les exportations et les importations de PPR correspondent aux chiffres déclarés par les répondants auxquels ont été ajoutés les exportations et les importations effectuées par des sociétés non-déclarantes à l'enquête sur les PPR. Quand de tels ajustements sont faits, des modifications sont aussi effectués aux chiffres de ventes intérieures. En conséquence, tout l'approvisionnement en PPR par des compagnies don-déclarantes ainsi que toutes exportations effectuées par de telles compagnies sont considérés dans le calcul des ventes intérieures; ainsi, ces ventes devraient être représentatives de la demande canadienne totale de PPR.

A quarterly questionnaire, requesting a detailed breakout by consumer categories of the domestic sales figures shown in this publication, is completed by the same companies that report to the monthly "Refined Petroleum Products" survey. The results of this quarterly survey, together with data for all other energy forms, are published in Catalogue #57-003 "Quarterly Report on Energy Supply - Demand in Canada".

The questionnaire used in the monthly refined petroleum products survey is subject to regular revision to reflect changing technologies, etc. The last such change was effected in 1982. Similarly, the list of respondents is constantly updated to ensure a total coverage of refining operations and a sufficiently wide coverage of the wholesalers/distributors of refined products.

The Canadian Socio-Economic Information Management System (CANSIM), which is Statistics Canada's computerized data bank, contains most of the data presented in this publication from 1973; less detailed information is available for the years 1956 to 1972. Please refer to matrixes 626 to 647. Certain summary information is also found on matrix 10.

Les chiffres publiées dans cette publication constituent une bonne partie des statistiques sur la situation pétrolière canadienne. Un questionnaire trimestriel identifiant les utilisateurs finals des PPR est complété par les mêmes sociétés déclarantes. Les résultats de cette enquête sont publiés, de pair avec un résumé des statistiques comprises dans cette publication et d'autres statistiques sur le pétrole et d'autres produits énergétiques, dans la publication "Bulletin trimestriel - disponibilité et écoulement d'énergie au Canada" (catalogue #57-003).

Au cours de son histoire, l'enquête PPR a été modifiée à plusieurs reprises afin de mieux refléter la réalité des industries du raffinage et de la distribution des PPR. Les derniers changements au questionnaire ont été effectués en 1982. La liste des compagnies soumises à la déclaration peut aussi être revisée; ceci afin de garder un taux de couverture complêt sur les activités des raffineries et un taux suffisant sur les activités de distribution des PPR.

Le Système canadien d'information socio-économique (CANSIM), qui est la banque de données informatisées de Statistique Canada, contient presque toutes les statistiques de cette publication à partir de 1973, et sur une base plus réduite pour les données de 1956 à 1972. Prière de consulter les matrices 626 à 647. Certaines informations se trouvent aussi sur la matrice 10.

#### **Definitions**

In order to explain the figures appearing in Table 1, we are listing below a set of definitions extracted from the reporting instructions.

#### **Refinery Feedstocks**

#### Line

- 1,2 Crude and equivalent received. Receipts of crude oil and equivalent hydrocarbons (condensate and pentanes plus) for refinery consumption or storage, credited to the province in which the refinery is located.
- 4,5 Inventory of crude. Contents of refinery tankage; excluding pipeline fill.
- 7 Crude oil and equivalents charged. Heavy oil is that with less than 28 API. Synthetic crude oil is that oil extracted from oil sands deposits.
- Other materials charged. Materials from petroleum or other sources which are external to the refinery and which are charged to the refinery as inputs.
- 8A Crude tops. Portion of crude oil input that remains after a first refinery (e.g., asphalt plant) has extracted the desired heavy products and which portion must be transferred to another refinery for further processing.
- 8B **Crude bottoms.** Portion of crude oil input that remains after a first refinery has extracted the desired light products and which portion must be transferred to another refinery for further processing.
- 8C LPG's. That portion of total liquefied petroleum gas receipts (primarily line 10 for the products propane and butanes) that is charged as a refinery input.
- 8D Natural Gas. Used as a refinery feedstock (exclude any natural gas used for heating or as fuel). Such natural gas should be expressed in cubic metres of heavy fuel oil equivalent.
- 8E Lubes for reprocessing. Lubricating oils and lubricating base stock, etc., to be reprocessed.
- 8F Other feedstocks. Other materials used e.g. additives (lead), etc. Also includes partially refined products from sources external to the refinery.

#### **Définitions**

Afin de préciser le sens de données du tableau 1, nous vous proposons ci-dessous une liste de définitions qui s'inspire des instructions sur la préparation du questionnaire.

#### Charges d'alimentation des raffineries

#### Ligne

- 1,2 Arrivages de pétrole brut et d'équivalents. Arrivages de pétrole brut et d'hydrocarbures équivalents (condensats et pentanes plus) destinés au raffinage ou au stockage, selon la province où se trouve la raffinerie.
- 4,5 **Stocks de brut.** Contenu des réservoirs des raffineries; exclus le contenu des pipe-lines.
- 7 **Pétrole brut et équivalents introduits.** Le pétrole brut lourd est défini comme étant de densité inférieur à 28 API; le pétrole brut synthétique comme étant le pétrole extrait des dépôts de sables bitumineux.
- 8 **Autres matières utilisées.** Matières d'origine pétolière ou d'autres sources, provenant de l'extérieur de la raffinerie et utilisées comme intrants au raffinage.
- 8A **Produits de la décantation.** Résidu obtenu du pétrole brut introduit dans, par exemple, une raffinerie d'asphalte, après l'extraction des éléments lourds, et qui doit :être transféré à une autre raffinerie pour y subir d'autres traitements.
- 8B **Résidus de brut.** Résidu obtenu du pétrole brut introduit dans une raffinerie après l'extraction des éléments légers, et qui doit être transféré à une autre raffinerie pour y subir d'autres traitements.
- 8C **GPL.** La partie du total des arrivages de gaz de pétrole liquefiés (voir principalement la ligne 10 pour les produits propane et butane) qui est utilisée comme intrant au raffinage.
- 8D **Gaz naturel.** Utilisé comme alimention au processus de raffinage (exclure tous les volumes de ce gaz utilisés pour chauffage ou comme carburant). Ce genre de gaz naturel doit être exprimé en mètres cubes comparativement à l'équivalent du mazout lourd.
- 8E **Lubrifiants recyclables.** Huiles de lubrification, huiles de base, etc., pour le retraitement.
- 8F Autres charges d'alimentation. Autres matières utilisées telles les additifs (par exemple le plomb), etc. Inclus aussi des produits pétroliers partiellement raffinés de source externe à la raffinerie.

10 **Refinery losses.** Volumetric gain between refinery input of raw materials and output of finished product, due to the fact that a greater volume of finished product (whose specific gravity is lighter than material input run to stills) is produced.

#### **Refined Products**

- Production. Measured at a "net yield" level, i.e. after exchanges between refinery processes (see explanatory notes).
- Interproduct transfers. Only those exchanges required, for example, for marketing purposes (see explanatory notes).
- 2A **Of which to Petro-chemicals.** Portion of the inter-product transfers line which is transferred as feedstock to the product "Petro-chemical feedstocks". This is a non-additive line.
- 4 **Transfers to refinery feedstock.** Previously refined products, partially refined products and other materials used which are to be reprocessed through the refinery. Such materials are from sources external to the refinery. This line should equal line 8 of Refinery Feedstocks above.
- 10 From non-reporting companies. Receipts from non-reporting companies (those not included in the list of reporting companies on page 104). All LPG receipts from gas processing plants are shown on this line; such LPG's may be used for refinery charge (see line 4 above) or for gasoline blending, petrochemical feedstocks, etc.
- 11 **From Reporting companies.** Receipts from companies reporting to the survey.
- 12 To reporting companies. Deliveries to companies reporting to the survey.

Note: the two previous items cover quantities emanating from sales agreements, processing agreements, exchanges, loans, etc.

- Own consumption. All refined products used in company operations (refining, marketing, etc.).
- Domestic sales. Sales by reporting companies, exclusive of exports and sales to other reporting companies, and adjusted for exports and imports by non-reporting companies (see Explanatory Notes above). This line is the mathematical result of the preceding lines and is derived by adding lines 1, 2, 5, 7, 9 (of preceding month), 10 and 11, and subtracting lines 4, 6, 8, 9, 12, 13 and 14.

10 **Pertes en raffinerie.** Gain volumétrique entre les matières premières introduites et le rendement en produits finis. Les raffineries fabriquent des produits finis d'un volume plus considérable mais d'un poids spécifique moins élevé que ceux des quantités introduites.

#### Produits raffinés:

- 1 **Production.** Mesurée d'après le rendement "net", c'està-dire après les échanges entre les diverses unités de raffinage (voir les renseignements généraux).
- Échanges inter-produits. Seulement les échanges nécessaires, par exemple, pour raisons de marketing (voir les renseignements généraux).
- 2A **Portion pour pétrochimiques.** Partie du poste "échanges inter-produits" qui est transférée comme charges d'alimentation au produit "charges pétrochimiques". Cette ligne n'entre pas dans le calcul des ventes nettes.
- 4 Retour pour alimentation des raffineries. Produits précédemment raffinés, produits partiellement raffinés et autres matières utilisées qui vont être traités de nouveau pour obtenir des produits pétroliers raffinés. Ces matières doivent provenir de sources extérieures à la raffinerie. Cette ligne doit égaler la ligne 8 de la section des charges d'alimentation des raffineries.
- Arrivages des sociétés non-déclarantes. Arrivages en provenance des sociétés non-déclarantes (non-incluses dans la liste des sociétés déclarantes de la page 104). Tous les arrivages de GLP en provenance de usines de traitement du gaz naturel sont montrés à cette ligne; de tels arrivages peuvent être utilisés comme intrants au raffinage (voir la ligne 4 ci-dessus) ou comme mélange pour l'essence, ou comme charges pétrochimiques, etc.
- 11 Arrivages des sociétés déclarantes. Arrivages en provenance des sociétés déclarantes à l'enquête.
- 12 **Expéditions aux sociétés déclarantes.** Expéditions aux sociétés déclarantes à l'enquête.

Nota: les deux postes précédents tiennent compte des accords de ventes, de traitements, d'échanges, de prêts, etc.

- 14 Auto consommation. Toutes les quantités de produits pétroliers utilisées dans les opérations des sociétés (raffinage, marketing, etc.).
- Ventes intérieures. Ventes par les sociétés répondantes, excluant les exportations et les ventes aux autres sociétés soumises à la déclaration; comprend aussi les ajustements pour tenir compte des exportations et des importations effectuées par les compagnies non-déclarantes (voir les renseignements généraux). Cette ligne est le résultat mathématique des lignes précédentes et est calculée par l'addition des lignes 1, 2, 5, 7, 9 (du mois précédent), 10 et 11, et la soustraction des lignes 4, 6, 8, 9, 12, 13 et 14.

#### 16 For Propane and Butanes only:

**Total export (N.E.B. 145).** Total of the exports as reported on form 145 of the National Energy Board (includes exports from both petroleum refineries and natural gas processing plants).

#### 16 Pour propane et butanes seulement:

**Total des exportations (O.N.E. 145).** Total des exportations selon le questionnaire 145 de l'Office national de l'énergie (inclus les exportations des raffineries de pétrole et celles des usines de traitement de gaz naturel).

# No other monthly report on the Canadian Economy has this much to offer

## La seule publication à vous offrir autant d'information sur l'économie canadienne

#### Canadian Economic Observer

The most extensive and timely information source for people who want objective facts and analysis on the Canadian Economy... every month.

#### Current economic conditions

Brief, "to the point" a current update summary of the economy's performance including trend analyses on employment, output, demand and the leading indicator.

#### Feature articles

In-depth research on current business and economic issues: business cycles, employment trends, personal savings, business investment plans and corporate concentration.

#### Statistical summary

Statistical tables, charts and graphs cover national accounts, output, demand, trade, labour and financial markets.

#### Regional analysis

Provincial breakdowns of key economic indicators.

#### International overview

Digest of economic performance of Canada's most important trading partners — Europe, Japan and the U.S.

#### Economic and statistical events

Each month, CEO also publishes a chronology of current events that will affect the economy, and information notes about new products from Statistics Canada.

#### Consult with an expert

The names and phone numbers of the most appropriate Statistics Canada contacts are provided with each data table in the statistical summary; not only can you read the data and the analysis, you can talk to the experts about it.

#### The Canadian Economic Observer

(Catalogue no. 11-010) is \$220 annually in Canada, US\$260 in the United States and US\$310 in other countries.

To order, write Publication Sales, Statistics Canada, Ottawa, Ontario, K1A 0T6 or contact the nearest Statistics Canada Regional Reference Centre listed in this publication.

For faster service, fax your order to 1-613-951-1584. Or call toll free at 1-800-267-6677 and use your VISA or MasterCard.

#### L'Observateur économique canadien

La revue la plus complète et la plus à jour qui soit pour les gens qui désirent des renseignements objectifs et une analyse de l'économie canadienne... chaque mois.

#### Les conditions économiques actuelles

Résumé bref et incisif de l'actualité économique du mois, comportant l'analyse des tendances de l'emploi, de la production, de la demande et de l'indicateur avancé.

#### Les études spéciales

Recherche approfondie sur les questions du domaine des affaires et de l'économie : cycles économiques, tendances de l'emploi, épargne personnelle, projets d'investissement et concentration des sociétés.

#### L'aperçu statistique

Tableaux, graphiques et diagrammes englobant les statistiques des comptes nationaux, de la production, de la demande, du commerce, de l'emploi

et des marchés financiers.

#### L'analyse régionale

141 Canal Control

Ventilation par province des indicateurs économiques stratégiques.

#### Le survol de l'économie internationale

Un sommaire du rendement de l'économie des partenaires commerciaux du Canada, comme l'Europe, le Japon et les États-Unis.

#### Événements économiques et statistiques

Chaque mois, L'OEC publie une chronologie des événements qui influenceront l'économie de même que des renseignements sur les nouveaux produits de Statistique Canada.

#### Consultez un expert

Les noms et numéros de téléphone des personnes-ressources figurent à chaque tableau de l'aperçu statistique; non seulement pouvez-vous lire les données et l'analyse, mais vous pouvez de plus discuter du sujet avec les experts de Statistique Canada.

#### L'Observateur économique canadien.

(nº 11-010 au catalogue) coûte 220 \$ l'abonnement annuel au Canada, 260 \$ US aux États-Unis et 310 \$ US dans les autres pays.

Pour commander, veuillez écrire à Vente des publications, Statistique Canada, Ottawa (Ontario), K1A 0T6 ou communiquer avec le Centre régional de consultation de Statistique Canada le plus près (voir la liste figurant dans la présente publication).

Pour un service plus rapide, commandez par télécopieur au 1-613-951-1584. Ou composez sans frais le 1-800-267-6677 et utilisez votre carte VISA ou MasterCard.

### ROCK SOLID INFORMATION

Statistique Canada fournit l'information à la base des grandes réalisations.

May 1990

Refined petroleum products

Mai 1990

Produits pétroliers raffinés

#### Data in Many Forms . . .

Statistics Canada disseminates data in a variety of forms. In addition to publications, both standard and special tabulations are offered on computer print-outs, microfiche and microfilm, and magnetic tapes. Maps and other geographic reference materials are available for some types of data. Direct access to aggregated information is possible through CANSIM, Statistics Canada's machine-readable data base and retrieval system.

#### How to Obtain More Information

#### Des données sous plusieurs formes . . .

Statistique Canada diffuse les données sous formes diverses. Outre les publications, des totalisations habituelles et spéciales sont offertes sur imprimés d'ordinateur, sur microfiches et microfilms et sur bandes magnétiques. Des cartes et d'autres documents de référence géographiques sont disponibles pour certaines sortes de données. L'accès direct à des données agrégées est possible par le truchement de CANSIM, la base de données ordinolingue et le système d'extraction de Statistique Canada.

#### Comment obtenir d'autres renseignements

Toutes demandes de renseignements au sujet de cette publication ou de statistiques et services connexes doivent être adressées à:

Section de l'énergie, Division de l'industrie,

Terre-Neuve et Labrador

Statistique Canada, Ottawa, K1A 0T6 (téléphone: 951-9823) ou au centre de consultation de Statistique Canada à:

#### Highlights

May 1990

In May, the total volume of crude and equivalents received by refineries decreased 5.7% compared to May 1989. This decrease is the result of a reduction in the receipts of domestic crude, which was partially offset by higher volumes in crude imports. Canadian refinery production in May, at 7 816 174 cubic metres (m3), increased 0.6%. Cumulative refinery receipts and refinery production rose 1.1%, and 0.2% respectively over volumes recorded last year.

May sales of refined petroleum products increased 0.5% to 7 231 519 (m3)<sup>3</sup> when compared to the same period last year. This increase was based on gains in sales of heavy fuel oil, petrochemical feedstocks and motor gasoline.

Following the May increase, cumulative sales for 1990 are down from 1989 levels. Total product sales to date reached 34 327 232, down 1.0% from the same period last year.

#### Faits saillants

Mai 1990

En mai, le volume total de pétrole brut et d'équivalents reçus par les raffineries a diminué de 5.7% comparativement au mois de mai 1989. Cette baisse résulte d'une diminution dans les volumes de pétrole brut domestique et contrebalancé par une hausse dans les arrivages de pétrole importé. Le volume de production des raffineries a augmenté de 0.6% pour atteindre 7 816 174 mètres cubes (m3). Sur la base cumulative, les arrivages aux raffineries ont augmenté de 1.1% par rapport à l'année précédente. La production pour la période janvier-mai enregistre maintenant un gain de 0.2%.

Les ventes de produits pétroliers raffinés en mai ont enregistré une hausse minime de 0.5% comparativement à la même période de l'année précédente pour atteindre un volume de 7 231 519 m³. Cette hausse se fonde sur des gains enregistrés dans les ventes de mazouts lourds, de charges petrochimiques et d'essence a moteurs.

Suite à la hausse du mois de mai, les ventes cumulatives démontrent une diminution comparativement aux volumes réalisés en 1989. Les ventes totales de produits pétroliers raffinés pour la période janvier-mai se chiffrent à 34 327 232 m³, en baisse de 1.0% par rapport à la même période en 1989.

# **Explanatory Notes**

# **Data Quality and Methodolodgy**

This publication results from the compilation of data reported monthly in the "Refined Petroleum Products" Survey, covering all refining companies in Canada and major wholesalers/distributors. We would like to thank these respondents for their co-operation in the survey.

The response rate for this survey is 100% and as a consequence no estimation is required and no bias resulting from non-response is introduced in these data.

In order to ensure the accuracy and consistency of these data the results of this survey are reconciled with other Energy section surveys such as the monthly Crude Oil and Natural Gas Production (Cat. 26-006) and the monthly Oil Pipeline Transport (Cat. 55-001) surveys in terms of inter-provincial movements, imports, exports and deliveries to refineries by type of crude and means of delivery.

These reported data allow for a measurement of refining activity in Canada. The supply of crude oil is indicated by source and the volume of other materials charged is also shown. Production of 17 refined products or groups of products is detailed and is measured at a "net yield" level, that is after exchanges between various processes in refinery operations. As a result, inter-products transfers are primarily those transfers needed for marketing purposes. Propane and butanes, shown at the gross level, are the exceptions the net yield measurement and therefore interproduct transfers for these products are not restricted to marketing transfers, but include movement to gasoline blending, to petrochemicals, etc. Similarly, interproduct transfers for "other products", a classification covering unfinished products whose final product form can vary, is not restricted to marketing transfers.

Data on the exports and imports of refined products are those reported by respondents to the survey, adjusted for exports and imports made by non-responding companies. When such adjustments are made, corresponding changes are made to "domestic sales". As a consequence, figures shown for "domestic sales" should accurately reflect total Canadian demand for refined products.

# Renseignements généraux

# Qualité des données et méthodologie

Cette publication est le fruit de la compilation des données obtenues mensuellement de l'enquête des produits pétroliers raffinés (PPR). Celle-ci est effectuée auprès de toutes les raffineries de pétrole au Canada et auprès des principaux grossistes et détaillants de PPR. Nous tenons à remercier toutes les sociétés déclarantes de l'effort qu'elles fournissent chaque mois.

Le taux de réponse est de 100% pour cette enquête et, par conséquent, il n'est pas nécessaire de faire d'estimations, les résultats ne souffrent donc pas du biais qu'entraîneraient des cas de non-réponse.

Afin d'assurer l'exactitude et la cohérence des résultats de cette enquête, nous les avons rapprochés à ceux d'enquêtes connexes de la Section de l'énergie, notamment l'enquête mensuelle sur la production de pétrole brut et de gaz naturel (no 26-006 au catalogue) et l'enquête mensuelle sur le transport du pétrole par pipe-lines (no 55-001 au catalogue), en ce qui a trait aux déplacements interprovinciaux, aux importations, aux exportations et aux livraisons faites aux raffineries selon le type de pétrole brut et le mode de livraison.

Les données contenues dans la publication permettent de mesurer l'activité des raffineries de pétrole. L'approvisionnement en pétrole est montré par source; l'utilisation d'autres charges d'alimentation est aussi indiquée. La production de PPR est détaillée entre 17 produits ou groupes de produits. La production de chaque produit est mesurée d'après le rendement "net" (c'est-à-dire après les échanges entre les diverses unités de raffinage), à l'exception de la production de propane et de butanes où une mesure brute est donnée. Les statistiques sur les échanges inter-produits devraient donc principalement refléter les échanges dus à des raisons de marketing, sauf pour le propane et les butanes, ainsi que pour les "autres produits" car ceux-ci incluent les produits non-finis dont l'utilisation finale peut varier.

Les statistiques sur les exportations et les importations de PPR correspondent aux chiffres déclarés par les répondants auxquels ont été ajoutés les exportations et les importations effectuées par des sociétés non-déclarantes à l'enquête sur les PPR. Quand de tels ajustements sont faits, des modifications sont aussi effectués aux chiffres de ventes intérieures. En conséquence, tout l'approvisionnement en PPR par des compagnies don-déclarantes ainsi que toutes exportations effectuées par de telles compagnies sont considérés dans le calcul des ventes intérieures; ainsi, ces ventes devraient être représentatives de la demande canadienne totale de PPR.

A quarterly questionnaire, requesting a detailed breakout by consumer categories of the domestic sales figures shown in this publication, is completed by the same companies that report to the monthly "Refined Petroleum Products" survey. The results of this quarterly survey, together with data for all other energy forms, are published in Catalogue #57-003 "Quarterly Report on Energy Supply - Demand in Canada".

The questionnaire used in the monthly refined petroleum products survey is subject to regular revision to reflect changing technologies, etc. The last such change was effected in 1982. Similarly, the list of respondents is constantly updated to ensure a total coverage of refining operations and a sufficiently wide coverage of the wholesalers/distributors of refined products.

The Canadian Socio-Economic Information Management System (CANSIM), which is Statistics Canada's computerized data bank, contains most of the data presented in this publication from 1973; less detailed information is available for the years 1956 to 1972. Please refer to matrixes 626 to 647. Certain summary information is also found on matrix 10.

Les chiffres publiées dans cette publication constituent une bonne partie des statistiques sur la situation pétrolière canadienne. Un questionnaire trimestriel identifiant les utilisateurs finals des PPR est complété par les mêmes sociétés déclarantes. Les résultats de cette enquête sont publiés, de pair avec un résumé des statistiques comprises dans cette publication et d'autres statistiques sur le pétrole et d'autres produits énergétiques, dans la publication "Bulletin trimestriel - disponibilité et écoulement d'énergie au Canada" (catalogue #57-003).

Au cours de son histoire, l'enquête PPR a été modifiée à plusieurs reprises afin de mieux refléter la réalité des industries du raffinage et de la distribution des PPR. Les derniers changements au questionnaire ont été effectués en 1982. La liste des compagnies soumises à la déclaration peut aussi être revisée; ceci afin de garder un taux de couverture complêt sur les activités des raffineries et un taux suffisant sur les activités de distribution des PPR.

Le Système canadien d'information socio-économique (CANSIM), qui est la banque de données informatisées de Statistique Canada, contient presque toutes les statistiques de cette publication à partir de 1973, et sur une base plus réduite pour les données de 1956 à 1972. Prière de consulter les matrices 626 à 647. Certaines informations se trouvent aussi sur la matrice 10.

# **Definitions**

In order to explain the figures appearing in Table 1, we are listing below a set of definitions extracted from the reporting instructions.

# **Refinery Feedstocks**

### Line

- 1,2 Crude and equivalent received. Receipts of crude oil and equivalent hydrocarbons (condensate and pentanes plus) for refinery consumption or storage, credited to the province in which the refinery is located.
- 4,5 **Inventory of crude.** Contents of refinery tankage; excluding pipeline fill.
- 7 Crude oil and equivalents charged. Heavy oil is that with less than 28 API. Synthetic crude oil is that oil extracted from oil sands deposits.
- 8 Other materials charged. Materials from petroleum or other sources which are external to the refinery and which are charged to the refinery as inputs.
- 8A **Crude tops.** Portion of crude oil input that remains after a first refinery (e.g., asphalt plant) has extracted the desired heavy products and which portion must be transferred to another refinery for further processing.
- 8B **Crude bottoms.** Portion of crude oil input that remains after a first refinery has extracted the desired light products and which portion must be transferred to another refinery for further processing.
- 8C **LPG's.** That portion of total liquefied petroleum gas receipts (primarily line 10 for the products propane and butanes) that is charged as a refinery input.
- 8D Natural Gas. Used as a refinery feedstock (exclude any natural gas used for heating or as fuel). Such natural gas should be expressed in cubic metres of heavy fuel oil equivalent.
- 8E **Lubes for reprocessing.** Lubricating oils and lubricating base stock, etc., to be reprocessed.
- 8F Other feedstocks. Other materials used e.g. additives (lead), etc. Also includes partially refined products from sources external to the refinery.

# **Définitions**

Afin de préciser le sens de données du tableau 1, nous vous proposons ci-dessous une liste de définitions qui s'inspire des instructions sur la préparation du questionnaire.

# Charges d'alimentation des raffineries

# Ligne

- 1,2 Arrivages de pétrole brut et d'équivalents. Arrivages de pétrole brut et d'hydrocarbures équivalents (condensats et pentanes plus) destinés au raffinage ou au stockage, selon la province où se trouve la raffinerie.
- 4,5 **Stocks de brut.** Contenu des réservoirs des raffineries; exclus le contenu des pipe-lines.
- 7 **Pétrole brut et équivalents introduits.** Le pétrole brut lourd est défini comme étant de densité inférieur à 28 API; le pétrole brut synthétique comme étant le pétrole extrait des dépôts de sables bitumineux.
- 8 **Autres matières utilisées.** Matières d'origine pétolière ou d'autres sources, provenant de l'extérieur de la raffinerie et utilisées comme intrants au raffinage.
- 8A **Produits de la décantation.** Résidu obtenu du pétrole brut introduit dans, par exemple, une raffinerie d'asphalte, après l'extraction des éléments lourds, et qui doit :être transféré à une autre raffinerie pour y subir d'autres traitements.
- 8B **Résidus de brut.** Résidu obtenu du pétrole brut introduit dans une raffinerie après l'extraction des éléments légers, et qui doit être transféré à une autre raffinerie pour y subir d'autres traitements.
- 8C **GPL.** La partie du total des arrivages de gaz de pétrole liquefiés (voir principalement la ligne 10 pour les produits propane et butane) qui est utilisée comme intrant au raffinage.
- 8D **Gaz naturel.** Utilisé comme alimention au processus de raffinage (exclure tous les volumes de ce gaz utilisés pour chauffage ou comme carburant). Ce genre de gaz naturel doit être exprimé en mètres cubes comparativement à l'équivalent du mazout lourd.
- 8E **Lubrifiants recyclables.** Huiles de lubrification, huiles de base, etc., pour le retraitement.
- 8F Autres charges d'alimentation. Autres matières utilisées telles les additifs (par exemple le plomb), etc. Inclus aussi des produits pétroliers partiellement raffinés de source externe à la raffinerie.

10 **Refinery losses.** Volumetric gain between refinery input of raw materials and output of finished product, due to the fact that a greater volume of finished product (whose specific gravity is lighter than material input run to stills) is produced.

# **Refined Products**

- Production. Measured at a "net yield" level, i.e. after exchanges between refinery processes (see explanatory notes).
- Interproduct transfers. Only those exchanges required, for example, for marketing purposes (see explanatory notes).
- 2A **Of which to Petro-chemicals.** Portion of the inter-product transfers line which is transferred as feedstock to the product "Petro-chemical feedstocks". This is a non-additive line.
- 4 **Transfers to refinery feedstock.** Previously refined products, partially refined products and other materials used which are to be reprocessed through the refinery. Such materials are from sources external to the refinery. This line should equal line 8 of Refinery Feedstocks above.
- 10 From non-reporting companies. Receipts from non-reporting companies (those not included in the list of reporting companies on page 104). All LPG receipts from gas processing plants are shown on this line; such LPG's may be used for refinery charge (see line 4 above) or for gasoline blending, petrochemical feedstocks, etc.
- 11 **From Reporting companies.** Receipts from companies reporting to the survey.
- 12 **To reporting companies.** Deliveries to companies reporting to the survey.

Note: the two previous items cover quantities emanating from sales agreements, processing agreements, exchanges, loans, etc.

- Own consumption. All refined products used in company operations (refining, marketing, etc.).
- Domestic sales. Sales by reporting companies, exclusive of exports and sales to other reporting companies, and adjusted for exports and imports by non-reporting companies (see Explanatory Notes above). This line is the mathematical result of the preceding lines and is derived by adding lines 1, 2, 5, 7, 9 (of preceding month), 10 and 11, and subtracting lines 4, 6, 8, 9, 12, 13 and 14.

10 **Pertes en raffinerie.** Gain volumétrique entre les matières premières introduites et le rendement en produits finis. Les raffineries fabriquent des produits finis d'un volume plus considérable mais d'un poids spécifique moins élevé que ceux des quantités introduites.

## Produits raffinés:

- 1 **Production.** Mesurée d'après le rendement "net", c'està-dire après les échanges entre les diverses unités de raffinage (voir les renseignements généraux).
- Échanges inter-produits. Seulement les échanges nécessaires, par exemple, pour raisons de marketing (voir les renseignements généraux).
- 2A **Portion pour pétrochimiques.** Partie du poste "échanges inter-produits" qui est transférée comme charges d'alimentation au produit "charges pétrochimiques". Cette ligne n'entre pas dans le calcul des ventes nettes.
- 4 Retour pour alimentation des raffineries. Produits précédemment raffinés, produits partiellement raffinés et autres matières utilisées qui vont être traités de nouveau pour obtenir des produits pétroliers raffinés. Ces matières doivent provenir de sources extérieures à la raffinerie. Cette ligne doit égaler la ligne 8 de la section des charges d'alimentation des raffineries.
- Arrivages des sociétés non-déclarantes. Arrivages en provenance des sociétés non-déclarantes (non-incluses dans la liste des sociétés déclarantes de la page 104). Tous les arrivages de GLP en provenance de usines de traitement du gaz naturel sont montrés à cette ligne; de tels arrivages peuvent être utilisés comme intrants au raffinage (voir la ligne 4 ci-dessus) ou comme mélange pour l'essence, ou comme charges pétrochimiques, etc.
- 11 Arrivages des sociétés déclarantes. Arrivages en provenance des sociétés déclarantes à l'enquête.
- 12 **Expéditions aux sociétés déclarantes.** Expéditions aux sociétés déclarantes à l'enquête.

Nota: les deux postes précédents tiennent compte des accords de ventes, de traitements, d'échanges, de prêts, etc

- **Auto consommation.** Toutes les quantités de produits pétroliers utilisées dans les opérations des sociétés (raffinage, marketing, etc.).
- Ventes intérieures. Ventes par les sociétés répondantes, excluant les exportations et les ventes aux autres sociétés soumises à la déclaration; comprend aussi les ajustements pour tenir compte des exportations et des importations effectuées par les compagnies non-déclarantes (voir les renseignements généraux). Cette ligne est le résultat mathématique des lignes précédentes et est calculée par l'addition des lignes 1, 2, 5, 7, 9 (du mois précédent), 10 et 11, et la soustraction des lignes 4, 6, 8, 9, 12, 13 et 14.

# 16 For Propane and Butanes only:

**Total export (N.E.B. 145).** Total of the exports as reported on form 145 of the National Energy Board (includes exports from both petroleum refineries and natural gas processing plants).

# 16 Pour propane et butanes seulement:

**Total des exportations (O.N.E. 145).** Total des exportations selon le questionnaire 145 de l'Office national de l'énergie (inclus les exportations des raffineries de pétrole et celles des usines de traitement de gaz naturel).

Pour obtenir plus de renseignements sur toute la gamme de publications et de services qu'offre Statistique Canada, veuillez composer le numéro sans frais 1-800-267-6677.

Statistique Canada fournit l'information à la base des grandes réalisations.

# THE NEWS BEHIND THE NUMBERS

The 1986 Census Data Base collected the numbers on Canadians – but what do they mean to you? The FOCUS ON CANADA Series analyses the issues that emerged from the Census results, in an easy-to-read style.

FOCUS ON CANADA looks at the issues affecting Canada's seniors and its youth, its ethnic and aboriginal communities; its regions in the far north and the industrial south.

And there's much more to keep you informed – and enlightened. Each publication is bilingual, and costs \$10 in Canada (US\$11 in other countries). Order the full set of 16 for a comprehensive reference tool for home, school or office.

# CE QUI SE CACHE DERRIÈRE LES CHIFFRES

La base de données du recensement de 1986 renferme des chiffres sur les Canadiens. Mais que signifient-ils? La série LE CANADA À L'ÉTUDE analyse les questions qui proviennent des résultats du recensement, et ce, dans un style accessible.

LE CANADA À L'ÉTUDE examine les questions qui touchent les personnes âgées et les jeunes, les groupes ethniques et les autochtones, les régions éloignées du Grand Nord et la région industrialisée du sud du Canada.

De plus, cette série vous informe et vous éclaire grâce à d'innombrables autres renseignements. Chaque publication est bilingue et se vend 10 \$ au Canada (11 \$ US à l'étranger). Commandez l'ensemble des 16 publications de façon à obtenir un outil de référence par excellence pour la maison, l'école ou le bureau.

To order, write to Publication Sales, Statistics Canada, Ottawa, Ontario, K1A 0T6. For faster service, using VISA or MasterCard, call toll-free.

Please make cheques or money orders payable to the Receiver General for Canada/Publications.

# Data in Many Forms . . .

Statistics Canada disseminates data in a variety of forms. In addition to publications, both standard and special tabulations are offered on computer print-outs, microfiche and microfilm, and magnetic tapes. Maps and other geographic reference materials are available for some types of data. Direct access to aggregated information is possible through CANSIM, Statistics Canada's machine-readable data base and retrieval system.

## How to Obtain More Information

Inquiries about this publication and related statistics or services should be directed to:

Energy Section, Industry Division,

Statistics Canada, Ottawa, K1A 0T6 (Telephone: 951-9823) or to the Statistics Canada reference centre in:

| St. John's | (772-4073) | Winnipeg  | (983-4020) |
|------------|------------|-----------|------------|
| Halifax    | (426-5331) | Regina    | (780-5405) |

# Des données sous plusieurs formes . . .

Statistique Canada diffuse les données sous formes diverses. Outre les publications, des totalisations habituelles et spéciales sont offertes sur imprimés d'ordinateur, sur microfiches et microfilms et sur bandes magnétiques. Des cartes et d'autres documents de référence géographiques sont disponibles pour certaines sortes de données. L'accès direct à des données agrégées est possible par le truchement de CANSIM, la base de données ordinolingue et le système d'extraction de Statistique Canada.

# Comment obtenir d'autres renseignements

Toutes demandes de renseignements au sujet de cette publication ou de statistiques et services connexes doivent être adressées à:

Section de l'énergie, Division de l'industrie,

Terre-Neuve et Labrador

Statistique Canada, Ottawa, K1A 0T6 (téléphone: 951-9823) ou au centre de consultation de Statistique Canada à:

| St. John's | (772-4073) | Winnipeg  | (983-4020) |
|------------|------------|-----------|------------|
| Halifax    | (426-5331) | Regina    | (780-5405) |
| Montréal   | (283-5725) | Edmonton  | (495-3027) |

# **Highlights**

June 1990

In June, the total volume of crude and equivalents received by refineries decreased 4.7% compared to June 1989. This decrease is the result of a reduction in the receipts of domestic crude, which was partially offset by higher volumes in crude imports. Canadian refinery production in June, at 7 731 377 cubic metres (m3), decreased 5.3%. Cumulative refinery receipts increased 0.2% and refinery production declined 0.7% over volumes recorded last year.

June sales of refined petroleum products decreased 1.5% to 6 839 262 (m3) when compared to the same period last year. This decrease was based on losses in sales of diesel fuel oil and petroleum coke.

Following the June decrease, cumulative sales for 1990 are down from 1989 levels. Total product sales to date reached 41 171 243, down 1.1% from the same period last year.

# Faits saillants

Juin 1990

En juin, le volume total de pétrole brut et d'équivalents reçus par les raffineries a diminué de 4.7% comparativement au mois de juin 1989. Cette baisse résulte d'une diminution dans les volumes de pétrole brut domestique et contrebalancé par une hausse dans les arrivages de pétrole importé. Le volume de production des raffineries a diminué de 5.3% pour atteindre 7 731 377 mètres cubes (m3). Sur la base cumulative, les arrivages aux raffineries ont augmenté de 0.2% par rapport à l'année précédente. La production pour la période janvier-juin enregistre maintenant une diminution de 0.7%.

Les ventes de produits pétroliers raffinés en juin ont enregistré une baisse de 1.5% comparativement à la même période de l'année précédente pour atteindre un volume de 6 839 262 m³. Cette baisse se fonde sur des pertes enregistrées dans les ventes de carburant diesel et de coke de pétrole.

Suite à la baisse du mois de juin, les ventes cumulatives démontrent une diminution comparativement aux volumes réalisés en 1989. Les ventes totales de produits pétroliers raffinés pour la période janvier-juin se chiffrent à 41 171 243 m³, en baisse de 1.1% par rapport à la même période en 1989.
